=== Safety Measures for Earthquake and COVID-19: Shelter in Place, Keep 6' Distance, Stay Calm, Tele-commute and Tele-medicine. ===

The growth of coronavirus cases in Utah follows subexponential growth (green line, $p = 0.76$), slower than exponential growth (red line, $p = 1$), faster than linear growth (blue line, $p = 0$). Note: the range for the growth parameter p is $[0, 1]$; the larger the p -value, the faster the growth.
