【04/05 COVID-19 Briefing by Utah Chinese Communities 6:00pm Mountain Time】

=== Safety Measures for COVID-19: Shelter in Place, Keep 6' Distance, Stay Calm, Tele-commute and Tele-medicine. ===

The growth of coronavirus cases in Utah follows subexponential growth (green line, $p = 0.70$), slower than exponential growth (red line, $p = 1$), faster than linear growth (blue line, $p = 0$).
Note: the range for the growth parameter p is $[0, 1]$; the larger the p -value, the faster the growth.
